

TYNDALL  
1859

AMAZING!  
CARBON DIOXIDE  
ABSORBS A LOT  
OF HEAT!

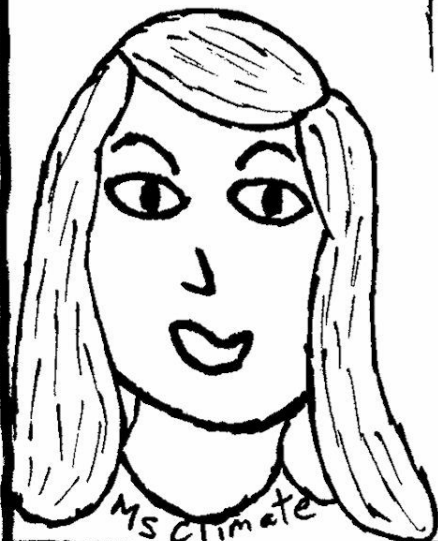

IF THE  
ATMOSPHERE HAS  
MORE CARBON DIOXIDE  
IN IT, THE EARTH  
WILL HEAT UP.

1896  
ARRHENIUS

BURNING FOSSIL  
FUELS RELEASES  
CARBON DIOXIDE  
THAT WAS  
SEQUESTERED  
MILLIONS OF  
YEARS AGO.

THE EARTH'S  
TOO BIG.  
A BIT OF GAS  
COULD NEVER  
CHANGE IT.
